

## AMETHYST - EXHIBITION TUNNEL

The largest exposed amethyst vein in the world! The Maissau amethyst is a real rarity that's referred to as a "gangue or banded amethyst". There are only about twenty regions worldwide that produce banded amethysts in good quality – the incomparable violet colour of amethyst is only found in very few deposits, such as the one here in Maissau.

The guided tour through the Amethyst Tunnel starts in the Amethyst Pavilion and takes you back through the history of the amethyst. From pharaohs, emperors and kings to Hildegard von Bingen, the amethyst has seen a lot in its history. As early as 1350, natural scientist Konrad von Megenberg enthusiastically stated: "Amethyst drives away evil thoughts and brings good sense."

The second part of the tour takes you into the Amethyst Exhibition Tunnel, where the impressive Maissauer Bänder Amethyst with its exceptional violet colour enchants young and old alike. Here, visitors can marvel at the magnificent amethyst band that is 12 metres deep and over 40 metres long. This means that Maissau is home to not only the largest amethyst deposit in Europe but also the world's largest accessible amethyst viewing gallery.

**NOTE:** The Amethyst Exhibition Tunnel can only be visited as part of a guided tour.

**TOUR DURATION:** Approx. 1 hour

**GOOD TO KNOW:** The temperature in the tunnel is 16-18 degrees.

## CRYSTAL SKULLS - keys to hidden worlds?

There are phenomena that are beyond our imagination – from the mysteries of quantum mechanics to the power of meditation and the mysterious energy of stones. Clearly, there are forces that go far beyond what humans can perceive. Crystal skulls are one of the great mysteries of archaeology: they are artfully crafted from rock crystal and other precious stones, perfectly symmetrical and without any visible tool marks. To this day, scientists are still trying to figure out how they were made hundreds of years ago and, above all, what purpose they served for humans!

According to tradition, it was believed that they could store ancient knowledge, concentrate cosmic energy and even influence the fate of humanity. The legendary Mitchell-Hedges crystal skull made the mysticism known worldwide. In the 1970s, the esoteric boom sparked a fascination with crystal skulls. Stories and films turned them into symbols of mystery – even Hollywood's most famous archaeologist searched for the famous 13 crystal skulls of the ancient Mayan legend.

The Amethyst World Maissau presents the world's largest crystal skull exhibition to date: 30 spectacular exhibits from South America, Central Europe, Tibet, India and Indonesia, complemented by one of only 30 original and certified Indiana Jones film photos featuring Harrison Ford, await you in the Amethyst World's gemstone house. Discover the secret power of crystal skulls up close – and feel their hidden power for yourself!
